

THE KEY

Mastering the power of
dynamically focused attention

ONE DAY THAT COULD UPGRADE
THE WAY YOU THINK, WORK AND LIVE

Part of the reality of being "human" is that we, by default, create that which we become conscious of. We have no ability to unplug or disconnect the relationship between our thinking and what we create as our perception of reality.

The content and ideas of this workshop are simple, practical and life enhancing. It is all about becoming conscious of what we do naturally, "THINKING" and the wisely putting the creative power of our deliberate thought energy to work for us in a dynamic way to attain our desired quality of life.

DAVID PICKARD WYLLIE, who has students in all the major countries of the world, will use his uncommon sense wisdom to reveal to you the difference between processing common perceptions and accurate thinking.

ALISON VON KETELHODT, who has put the TAG principles into practice all her adult life, will share practical wisdom on utilising dynamic focused attention.

The day will set up a framework for you to separate the parables and dogma of your social conditioning from the laws that govern the universe, empowering you to re-evaluate your relationship with life.

"There are two ways to be fooled. One is to believe what is not true; the other of to refuse to believe what is true."

PERFECT FOR PEOPLE WHO ARE ALREADY
EXCEPTIONAL PERFORMERS AND WANT TO
DYNAMICALLY ENHANCE THEIR ABILITIES.

The power of our own thoughts is the only dependable power available to any human being.

DURING THE DAY YOU WILL DISCOVER:

- ✓ Why focused attention is the foundation of every achievement
- ✓ How exceptional people turn impossibilities into possibilities
- ✓ How distractions quietly control our lives
- ✓ The science behind focused attention and its powers
- ✓ Practical exercises to prove the power of concentration within ourselves and externally to influence our environment
- ✓ How to make the seemingly impossible possible
- ✓ A simple daily practice that transforms your effectiveness
- ✓ How to step out of your comfort zone to reach unlimited possibilities
- ✓ How focused attention becomes the key to achieving meaningful goals
